**ShareMethods Used by More than 100 Companies in 15 Countries Worldwide -
Accelerated by ShareNow and ShareFree for AppExchange**

CNET Channel, TI Broadcast Solutions Group, and Evolution Benefits are among the new customers subscribing to ShareNow for AppExchange to manage documents on-demand

San Francisco -- salesforce.com Appforce Conference – May 24, 2006 – ShareMethods and salesforce.com (NYSE:CRM), the market and technology leader in on-demand business services, today announced the use of ShareMethods by more than one hundred companies worldwide, with major momentum delivered by ShareNow and ShareFree, both available via the salesforce.com AppExchange. ShareMethods is used in fifteen countries around the world to support the management and secure distribution of sales and marketing materials to prospects, employees, customers, and partners. ShareNow and ShareFree integrate with Salesforce as a composite application to enable quick and easy access to dynamic libraries of business critical content. Built on the AppExchange on-demand platform, ShareNow for AppExchange and ShareFree for AppExchange are immediately available for evaluation and deployment at <http://www.salesforce.com/appexchange>. The announcement was made today at Appforce, salesforce.com's first annual AppExchange partner, user and developer conference.

"The milestone of having 100 companies use the ShareMethods platform is significant," said Eric Hoffert, CEO of ShareMethods, "and customer demand for ShareNow and ShareFree for AppExchange has played a key role to achieve this milestone. Key customers such as CNET Channel, TI Broadcast Solutions Group, and Evolution Benefits have signed up for our on-demand services, and our AppExchange customers are ramping up their user communities rapidly. In just four months, we have more than doubled our user base, tripled our customer base, and expanded our international reach. The global reach of our user base and the new adoption validate the customer benefits of ShareNow and the ease of deployment with the AppExchange".

ShareMethods has extended its user base to include users in the US, Canada, Mexico, France, England, Australia, Sweden, Switzerland, Hong Kong, Singapore, China, Russia, Japan, New Zealand, Germany, and Ireland. And ShareMethods customers have further extended their use of ShareNow for AppExchange to share business critical documents with their worldwide partner networks.

"We started with a deployment of ShareNow for AppExchange for our internal sales and marketing team. That deployment brought quick value for effective sharing of best practices and key documents within the company. As a next step, we rapidly expanded our usage of ShareNow to more than twenty of our key business partners across the country, and they too are now experiencing the value of documents on-demand via ShareNow. Indeed we hope to go further and deploy ShareNow for AppExchange with an even broader partner community," said Jimnahs Herron, Manager Sales and Marketing, Evolution Benefits.

"The continued momentum of ShareNow for AppExchange in the marketplace is important news," said Bobby Napiltonia, senior vice president, worldwide channels and alliances, salesforce.com. "It illustrates the growing priority of managing documents for sales and marketing teams, as more

and more content needs to be accessed on-demand by globally distributed teams and partners. The unique capabilities for advanced document management and collaboration provided by ShareNow move the boundaries forward for software-as-a-service. With an ability to deploy ShareNow for AppExchange easily, quickly, and cost-effectively, the benefits of using ShareNow are broadly accessible to a large user community.”

ShareNow and ShareFree provide powerful capabilities for customers to securely manage and distribute sales, marketing, and support materials. Capabilities include full document version control, review and approval workflows, user roles and permissions, Google-like full text search, customizable sales and marketing taxonomies, linking of documents to CRM data, community ratings and reviews, and deep integration with salesforce.com. Customers can quickly deploy a sales, marketing, and support knowledge center that can be securely shared across an extended network of users inside and outside of a company.

ShareNow for AppExchange is one of more than 250 applications created by salesforce.com, its customers and partners that are now available on the salesforce.com AppExchange, the world's first on-demand application platform. AppExchange provides unprecedented ease of customization and integration for Salesforce deployments, as well as enabling a whole new generation of on-demand applications that go beyond CRM. AppExchange enables all of these on-demand applications to be easily shared, exchanged and installed with one click into a customer's salesforce.com account. AppExchange can be found at <http://www.salesforce.com/appexchange>.
